

Korrick's Building Contractors and Materials

FURNITURE BY DORRIS-HEYMAN

One of the most beautifully equipped and furnished features of the Korrick Greater New York Store is the rest room. This room was furnished throughout by the Dorris-Heyman Furniture Company, the big five-theated furniture house of Arizona. The furnishings of the rest room are of the very highest class, are quite

elaborate and harmonious with the wood-work throughout the building. The Dorris-Heyman Furniture Company is one of the largest firms on the entire Pacific Coast. They occupy practically all of a building of five floors covering one-fourth of an entire city square. This store has its departments so well arranged that each department head can instantly locate anything in the large lines handled. It is said that no store on the Pacific Coast handles a

better grade of furnishings, or where the prices are more reasonable for the class of goods sold.

ELECTRICAL WORK BY BERTRAM BROS.

One of the striking features of the new Korrick building is the electrical work through. This work was all done and the fixtures furnished by Bertram Brothers. The electrical fix-

tures are a credit to the new building. The Korricks were greatly pleased with the manner in which the installation of the electrical fixtures was done, the work being completed before the expiration of the date the contract called for. The firm is about one year old and composed of W. R. Bertram and F. C. Bertram. They have one of the largest and most complete stocks of electrical fixtures in the state of Arizona in a beautiful store at 15 South Central avenue.

Other contracts that this firm now has are the Ackel building, Central Avenue Investment Company building, at the corner of Central avenue and Adams; Rosensweig's new store, Luhrs' building, new Adams Grill, The Rose Tree and E. Eisle's residence. This firm also recently installed the electrical lights for the Christian church, Wolf and Wolf, Cole Motor Company, Barnett Clothing Company, Capitol Liquor Company (which is the largest in the state of Arizona) and the Health Office.

THE MARBLE FROM JAMES N. PETTY

All the beautiful Vermont marble so expertly handled and placed that beautifies the front of the new Korrick Block was furnished by a local contractor, James N. Petty, whose specialty has stood out in Phoenix

in marble and high class tile work. The great durability of marble and tile makes it highly desirable on all permanent work. Petty is the Phoenix man that is always on the job. He has been in Phoenix for two years and besides many small jobs, street school and has furnished the floors and walls of many of the best

both rooms of the higher priced private residences.

Mr. Petty's headquarters are at 432 West Washington street. Mr. Petty has become well-known in the city of Phoenix in the familiarity of this phrase: "In the work the first cost is the last cost."
